

BRAD GAEDDERT JOINS MARINER HOLDINGS AS BUSINESS DEVELOPMENT OFFICER

(LEAWOOD, KAN.) – Mariner Holdings, LLC, is pleased to announce that Brad Gaeddert has joined the firm in the role of business development officer. Gaeddert’s role will include creation and development of new business opportunities for the various entities under the Mariner Holdings umbrella of companies.

“As Mariner continues to grow at a rapid pace, Brad brings additional intellectual capital and an extensive personal background in business and finance to the firm,” said Martin Bicknell, chief executive officer of Mariner. “Because of our rate of growth and our client-centered philosophy, Gaeddert will also be responsible for managing new relationships through the point at which a Mariner specialist can be assigned,” Bicknell added. The firm offers services across the financial spectrum, with any one client often being involved in more than one Mariner entity.

Gaeddert has over 15 years of experience in the banking and financial services industry and was previously the regional business development officer at M&I Bank. Before M&I, Brad was a senior vice president at Country Club Bank, responsible for new business development and the management of several key relationships. He has been involved in the acquisition and selling of privately held businesses, and has owned and operated a successful residential real estate company. Brad is also the co-founder and manager of Sparks of Hope Charitable Foundation, a charitable funding vehicle. Charitable foundations and organizations are one of the cornerstones to Mariner’s business model and philosophy.

Gaeddert’s broad experience working with successful entrepreneurs, executives, and other professionals on a number of different business planning issues makes him well suited for his new role at Mariner. Some of the areas he will be involved in are the family office group, Mariner Wealth Advisors, Mariner Equity Management, and Mariner Real Estate Management.

Mariner Holdings is a Kansas City-based financial services company. The firm offers diverse, customized financial expertise, including wealth management; private equity placement; estate, tax and benefit planning; insurance; and charitable giving solutions to high net worth individuals, business owners and executives, corporations, and foundations.
